

Design Links:

<https://www.figma.com/file/dflaGXC6EfwEYhufOIxtHQ/LeapifyTalk?node-id=1%3A8>

Testing Url: <https://musing-saha-2d39c9.netlify.app/>

Goal:

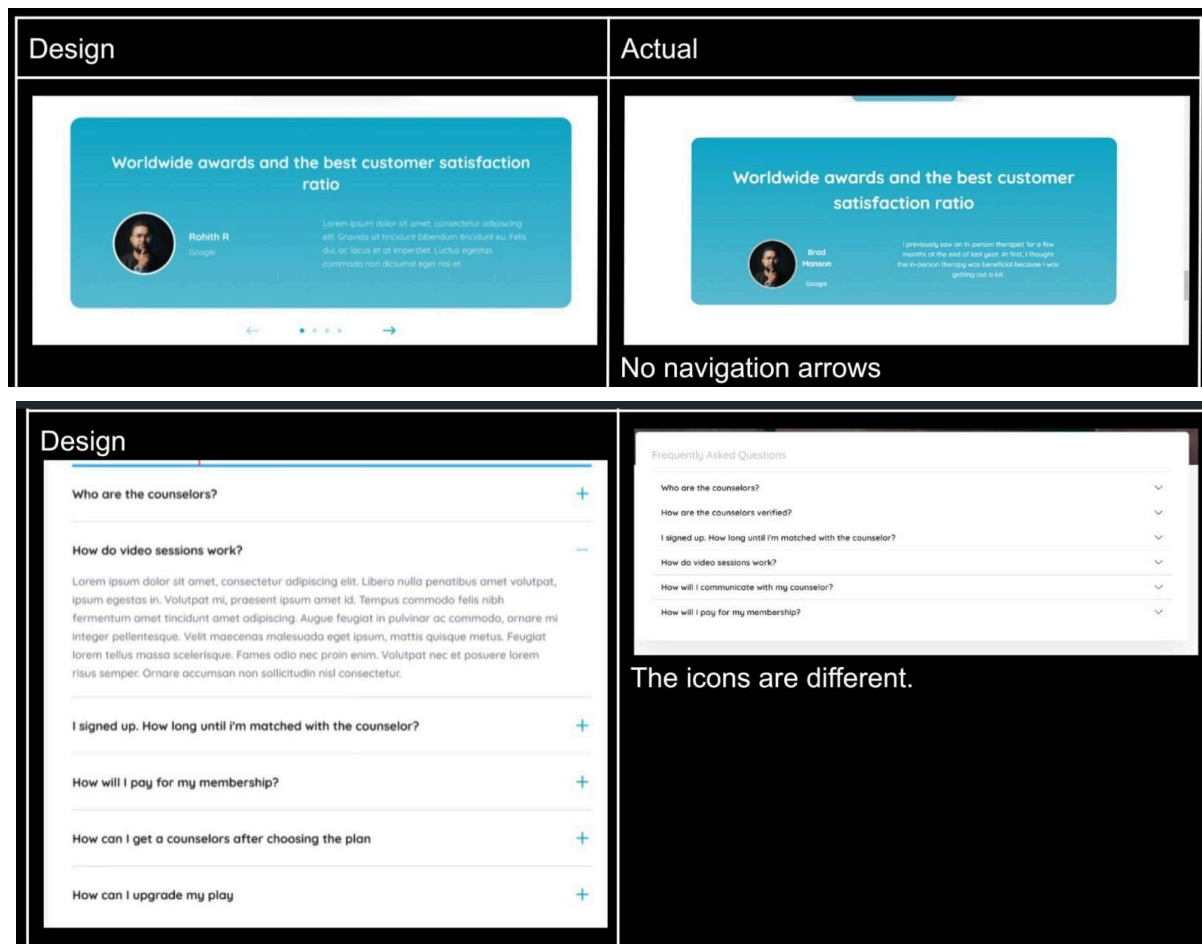

User experience testing is the process of testing different aspects of user experience to determine the best way for a website and its elements to interact with its audience

Instruction:

Go through the above design link. Understand the scope of the website.

You have to create a UI/UX testing report. Find as many bugs as possible in terms of font, text navigation, and icons etc.

Below is examples -

Note:

1. Make a report on above format
2. Find as many UI/UX bugs as possible.. More you find better chances of getting shortlisted
